

**METHOD AND SYSTEM FOR EVALUATING**  
**QUALITY OF SERVICE FOR STREAMING AUDIO AND VIDEO**

**ABSTRACT OF THE DISCLOSURE**

- 5           A system for measuring performance of streaming media sent from a server over a network. The system includes a data acquisition agent connected to the network and operable to send a request for streaming media to the server. The agent is configured to receive streaming media, collect performance measurements, and send the performance measurements to a storage device.
